

Supercharge Summer Learning Key Objectives for TEKS Readiness Standards

ST Math helps students develop a deep conceptual understanding of mathematics. To help with learning recovery, ST Math has provided a set of recommended objectives, according to TEKS Readiness Standards, that teachers may use to support on-grade-level content. These objectives should be viewed as key concepts for the grade level, and are listed in priority order. Due to ST Math's unique approach to content, it is always recommended that teachers start students with their on-grade-level journey prior to assigning below-grade-level content.

Kindergarten Objectives

- Number and Objects to 10
- Understanding Addition and Subtraction within 5
- Number and Objects to 20
- Comparing Numbers
- Sorting and Classifying

1st Grade Objectives

- Measurement Concepts
- Addition and Subtraction within 20
- Counting to 120
- Place Value Concepts
- Counting by Tens
- Adding and Subtracting by Tens
- Comparing and Ordering Two Digit Numbers
- Shape Differences

2nd Grade Objectives

- Skip Counting
- Addition and Subtraction Situations
- Addition and Subtraction Situations within 100
- Comparing Three-Digit Numbers
- Measurement
- Adding and Subtracting Tens and Hundreds
- Shapes
- Partitioning into Equal Shares

3rd Grade Objectives

- Multiplication Concepts
- Division Concepts
- Multiplication and Area
- Fraction Concepts
- Fractions on a Number Line
- Multiplication and Division Relationships
- Area and Perimeter
- Solve Two-Step Problems
- Shapes

4th Grade Objectives

- Using Place Value
- Mixed Numbers
- Applying Area and Perimeter
- Addition and Subtraction with Decimals
- Fractions-Equivalence and Ordering
- Adding and Subtracting with Fractions
- Multi-Step Problems Using 4 Operations
- Measurement and Conversions

5th Grade Objectives

- Interpret Expressions
- Adding & Subtracting Fractions with Unlike Denominators
- Dividing Fractions
- Multiplying Decimals
- Dividing Decimals
- Converting Measurements
